QUALI[®]-BLENDS¹ MADE EASY WITH ONLINE FORMULATION CENTRE

DSM Nutritional Products has launched a dedicated website for its Quali[®]-Blends nutritional solutions. This sophisticated new online resource is designed to provide easy to use concept development and formulation assistance to customers looking to enhance the nutritional value of their products. Quali-Blends are custom-designed premixes containing a combination of nutrients to enhance food, beverages and dietary supplements. The nutrients available range from vitamins and minerals, nucleotides and amino acids to the most recent developments in functional ingredients. The site – www.quali-blends.com – hosts a formulation centre where manufacturers can quickly and easily input their application requirements for DSM Nutritional Products to translate into a tailored nutritional solution.

Jaime Piza, senior director premix business at DSM Nutritional Products, comments: *“Our Quali-Blends capabilities mean we can help manufacturers get to market faster with appealing solutions that work. As the only vertically integrated vitamin and premix supplier, we have the knowledge and expertise to provide support at every level – from identifying the right blend of nutrients and offering consumer insights, to producing ingredients to the highest standard as well as ensuring complete reliability and traceability. Our new website is now a key part of our overall offer with clear benefits for customers. A valuable source of nutrition solutions, www.quali-blends.com makes it easy for manufacturers to take the important first step towards developing successful consumer products.”*

With Quali-Blends, DSM recognises the value of combining nutritional ingredients with synergistic or complementary effects. A large team of scientists constantly monitors new research to ensure DSM confidently recommends the right combination of nutrients to target specific health concerns. With eight premix plants and five application labs on five continents, DSM is uniquely placed to offer technical and analytical support globally. All Quali-Blends have the Quality for Life^{™2} seal, assuring quality, reliability, traceability and manufacturing under safe and sustainable conditions.

ENDS
