

## DSM Nutritional Products developed website [www.vitamin-basics.com](http://www.vitamin-basics.com)

Kaiseraugst, CH, 24 October 2007

DSM Nutritional Products has developed an innovative website that provides comprehensive information about vitamins: [www.vitamin-basics.com](http://www.vitamin-basics.com)

Keeping abreast of new trends in the rapidly evolving and increasingly complex nutritional market can be difficult. That's why DSM Nutritional Products, as part of its continuous commitment to the industry, recently launched a new website that provides a wealth of information about vitamins and key nutritional issues open to students, the general public and manufacturers of food and pharmaceutical products. In fortification of food and for dietary supplements, vitamins are often the basic ingredients. More and more they form the basis of new nutritional concepts, in combination with 'newer' components.
