

TRANS AGULHAS INFLATABLE BOAT RACE 26 Dec 2007 - 1 Jan 2008

Inflatable boat racing originated in South Africa and has over the years established itself as one of the leading water sports in our country with national events taking place in Johannesburg, Cape Town, Port Elizabeth and Colesberg. With the ever increasing popularity of the sport, clubs have been established in the United Kingdom, Sweden, New Zealand, Australia and Namibia which has led to World Cup events being hosted annually throughout the world.

Apparently the most difficult inflatable boat race in the world, this 6 day 100 km race starts in Mosselbay and ends at The Strand with 7 beach stops per day. Considering the immense TV coverage and huge spectator appeal DSM decided to sponsor Wilhelm Steyn and Roux Coetzee who branded their boat, vehicles, and their 6 man team with Teavigo and PeptoPro.

Congratulations to Roux Coetzee and Wilhelm Steyn who finished overall 4th in their Teavigo PeptoPro Thunder Cat inflatable boat!
