

UVolve® Instant Floor Coatings for Concrete

DSM's **UVolve® Instant Floor Coatings** helps today's businesses maximize efficiency and responsibility with a floor coating solution that delivers long-term durability, fast return to service, and is friendly to both people and the environment.

Efficient and Convenient

- Fast Return to Service
- Sanitize Immediately
- Easy to Clean
- Less Maintenance Costs
- No Need to Leave the Area

Durable

- High Performance
- Cold Temperature Applications
- Maintains Gloss
- Chemical & Stain Resistant
- Long Lasting

Sustainable

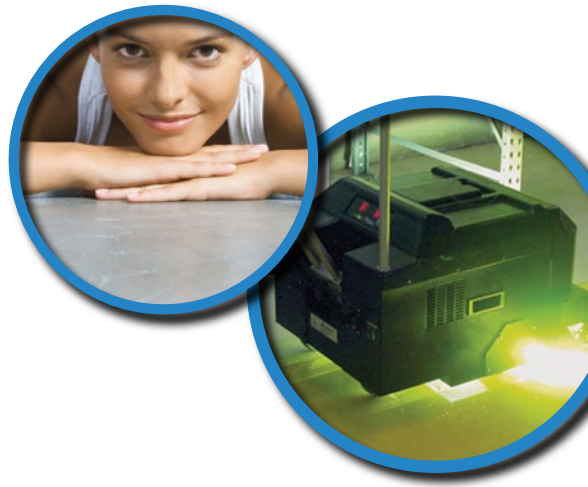

- Near-Zero VOC Emissions
- Low Odor
- Solvent-Free
- Non-Flammable
- Contributes to LEED Certification

High-performance UVolve® Instant Floor Coatings solve some unique problems facing today's commercial floor owners. For one, UVolve's immediate cure eliminates the down time for dry time required by many of today's traditional floor coating products.

UVolve® is also a highly sustainable solution. These solvent-free coatings are non-flammable, with near-zero volatile organic compounds (VOCs), no hazardous air pollutants (HAPS), and a mild odor which allows people and products to remain in the application

area throughout the installation process. For facilities pursuing green building certifications UVolve® Instant Floor Coatings are an excellent choice.

UVolve® Instant Floor Coatings are a proprietary, patent-pending ultra-violet (UV) cure technology. The coating is applied in a traditional way by an approved applicator and is then cured using a mobile UV light machine. Once installed, your new UVolve® floor is ready for immediate use — even heavy equipment traffic.

Solutions For Many Facilities

UVolve® is an attractive solution for a variety of facility types requiring high-performance concrete floor coatings. From its high-speed UV cure that dramatically reduces down time during installation, to its attractive yet durable surface that's easy to sanitize, UVolve® delivers long-lasting performance wherever its installed. Choose your color, your finish and your preferred anti-slip texture. And rest assured that you're making a truly sustainable choice—eco-friendly UVolve® is 100% solvent-free with near-zero VOC emissions and low odor. UVolve® is NSF certified for Food & Beverage facilities.

Our UVolve® Systems

UVolve® Clarity System

The UVolve® Clarity System is a clear floor coating solution for facilities that need a fast-turn around time, durable, long lasting performance, and low odor during installation. The system consists of a primer and a top coat, with a choice of high gloss or matte finish and a variety of anti-slip textures.

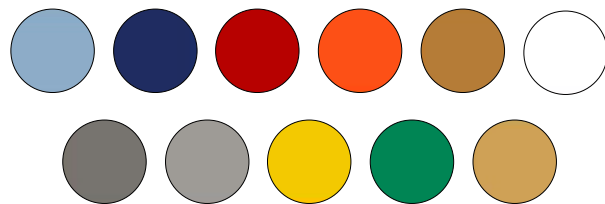

UVolve® Single Coat System

UVolve® Seal Coat provides an excellent solution for facilities seeking an economical and cost-effective way to have easy-to-clean floors with a single-coat application.

UVolve® Vivid System

The UVolve® Vivid System is a pigmented floor coating solution with all of the performance benefits of the UVolve® Clarity Systems. The system consists of a primer and a top coat with pigmented layers in between. Choose from various finishes and anti-slip textures.

There are 11 standard color options, with custom colors available upon request.
