

# UVolve<sup>®</sup> Instant Floor Coatings for Vinyl Composite Tile (VCT)

DSM's **UVolve<sup>®</sup> Instant Floor Guard** helps today's businesses maximize efficiency and responsibility with a floor coating solution that delivers long-term durability, fast return to service, and is friendly to both people and the environment.

## Efficient

- Unique single coat system that cures instantly by UV light
- Permanent solution – eliminate need for stripping of VCT
- Eliminate buffing/burnishing
- Save on maintenance costs

## Durable

- Long lasting protection
- Permanent high gloss appeal

## Sustainable

- Near-zero VOC emissions
- Solvent-free & low odor

Vinyl Composite Tile (VCT) is traditionally coated with an acrylic floor finish that requires frequent buffing or burnishing to maintain its gloss. In addition, acrylic floor finishes periodically need to be removed and the tiles recoated. UVolve<sup>®</sup> Instant Floor Guard is an attractive, long-term solution that lowers overall maintenance costs by eliminating the need for stripping and buffing/burnishing. It is a permanent solution that protects VCT against wear and tear.

No time for down time during installation? UVolve<sup>®</sup> Instant Floor Coatings are also the faster solution for VCT. This efficient UV-curable coating system provides full return to service just seconds after application. UVolve<sup>®</sup> is cured using a mobile UV light machine.

### UVolve®: The Sustainable Solution

All UVolve® Instant Floor Coatings are 100% solids, which means the liquid coating cures fully without any evaporation of solvents or water. It is non-flammable, has near-zero volatile organic compounds (VOC), no hazardous air pollutants (HAPS), and the odor is mild enough for people and products to remain in the application area throughout the installation process. For facilities pursuing green building certifications, UVolve® is an excellent choice, contributing towards LEED certification credits.

### DSM: Bright Science. Brighter Living™

UVolve® Instant Floor Guard is a product of Royal DSM N.V., a global science-based company active in health, nutrition and materials. DSM is a trusted leader in delivering innovative solutions that nourish, protect and improve performance in global markets such as food and dietary supplements, personal care, feed, pharmaceuticals, medical devices, automotive, paints, electrical and electronics, life protection, alternative energy and bio-based materials. DSM manages its business with a focus on the triple bottom line of economic performance, environmental quality and social responsibility, which it pursues simultaneously and in parallel.
