

The customer we care most about

DSM

BRIGHT SCIENCE. BRIGHTER LIVING.

To feed 9.7 billion people by 2050, sustainably and responsibly, and within our planet's finite resources, the time to change is now.

At DSM, we're focusing our passion and expertise on 6 key areas to support the livestock value chain and address the challenges facing our planet:

- Improving lifetime performance of farm animals
- Making efficient use of natural resources
- Reducing emissions from livestock
- Helping tackle antimicrobial resistance
- Reducing our reliance on marine resources
- Improving the quality of meat, milk, fish and eggs, while reducing food loss and waste

We strongly believe in sustainable food systems and that the livestock industry can transform itself from within to be a part of the solution. We want to play a key role in this transformation and work at species and country level, with our partners, to provide tangible and actionable solutions to create brighter lives for all.

If not us, who? If not now, when?

WE MAKE IT POSSIBLE
