

Annual Results 2012

# DSM – Bright Science. Brighter Living.™ Koninklijke DSM N.V. is a global science-based company active in health, nutrition and materials. By connecting its unique competences in Life Sciences and Materials Sciences DSM is driving economic prosperity, environmental progress and social advances to create sustainable value for all stakeholders. DSM delivers innovative solutions that nourish, protect and improve performance in global markets such as food and dietary supplements, personal care, feed, pharmaceuticals, medical devices, automotive, paints, electrical and electronics, life protection, alternative energy and bio-based materials. DSM's 23,500 employees deliver annual net sales of around € 9 billion. The company is listed on NYSE Euronext. More information can be found at www.dsm.com.

# DSM in motion: driving focused growth

**Annual Results 2012** 

**HEALTH · NUTRITION · MATERIALS** 

### Highlights Q4 2012

#### DSM is positioned for strong EBITDA growth and increases dividend

- DSM reports a solid Q4 with EBITDA of €243 million
- EBITDA full year 2012 of €1,109 million with growth in all clusters, except for caprolactam
- Robust performance of Life Sciences driven by Nutrition
- Materials Sciences performed well, except for caprolactam
- Strong cash generation from operating activities of €730 million in 2012
- Dividend increase proposed to €1.50 per ordinary share
- Outlook 2013: moving towards EBITDA of €1.4 billion

### Quote from Feike Sijbesma

"In the context of challenging macro-economic conditions, DSM delivered growth across all clusters in 2012, excluding caprolactam. Nutrition now represents more than 70% of total EBITDA and has become a high value, global business with attractive growth prospects across the full value chain."

"The significant strategic progress we made during 2012 through our value creating acquisitions and the profit improvement initiatives we have taken leave us well positioned to achieve our long term objectives. In 2013 we will focus on the operational performance and integration of the acquisitions we completed in 2012 with special attention to capturing synergies. We expect strong EBITDA growth in 2013, moving towards €1.4 billion. The Board's proposal to increase the dividend for the third consecutive year is testament to the stronger DSM we have built in recent years, with more stable growth and profitability going forward."

Feike Sijbesma CEO / Chairman of the Managing Board

# Net sales growth FY 2012 versus FY 2011

| (€ million)              | FY 2012 | FY 2011 | Diff. | Volume | Price | FX | Other |
|--------------------------|---------|---------|-------|--------|-------|----|-------|
| Nutrition                | 3,667   | 3,370   | 9%    | 2%     | 0%    | 3% | 4%    |
| Pharma                   | 726     | 677     | 7%    | 8%     | 1%    | 2% | -4%   |
| Performance Materials    | 2,772   | 2,752   | 1%    | -3%    | -1%   | 4% | 1%    |
| Polymer Intermediates    | 1,596   | 1,820   | -12%  | -6%    | -10%  | 4% |       |
| Innovation Center        | 102     | 60      |       |        |       |    |       |
| Corporate Activities     | 268     | 369     |       |        |       |    |       |
| Continuing<br>Operations | 9,131   | 9,048   | 1%    | -1%    | -2%   | 3% | 1%    |

### **Nutrition**

| Q4-2012 | Q4-2011 | Δ%  | (€ million)   | FY-2012 | FY-2011 | Δ%  |
|---------|---------|-----|---------------|---------|---------|-----|
| 923     | 865     | +7% | Net Sales     | 3,667   | 3,370   | +9% |
| 204     | 193     | +6% | EBITDA        | 793     | 735     | +8% |
| 157     | 149     | +5% | EBIT          | 613     | 577     | +6% |
| 22.1%   | 22.3%   |     | EBITDA margin | 21.6%   | 21.8%   |     |

- Fourth quarter organic sales growth was 1% compared to Q4 2011 with volume growth (4%) partially offset by lower prices (-3%). Reported sales were positively impacted by favorable exchange rates (1%) and the acquisition of Ocean Nutrition Canada
- EBITDA for the fourth quarter was €204 million, a 6% increase compared to the same quarter of 2011, mainly driven by the contribution of Ocean Nutrition Canada. The EBITDA margin was stable at 22.1%

### **Nutrition - cont**

- Human Nutrition & Health sales were up due to slightly higher prices and good volume growth.
   Premixes and Nutritional Lipids recorded double digit growth. Ocean Nutrition Canada showed strong sales momentum with the first synergy sales being realized. The Q4 results of Ocean Nutrition Canada were in line with expectations with sales of €36 million and EBITDA of €11 million
- Animal Nutrition & Health sales were somewhat lower due to stable volumes and a negative price and mix effect
- Personal Care showed stable volumes with somewhat higher prices
- DSM Food Specialties continued its growth especially in enzymes and savory ingredients

### **Pharma**

| Q4-2012 | Q4-2011 | Δ%   | (€ million)   | FY-2012 | FY-2011 | Δ%  |
|---------|---------|------|---------------|---------|---------|-----|
| 197     | 165     | +19% | Net Sales     | 726     | 677     | +7% |
| 13      | 11      | +18% | EBITDA        | 39      | 36      | +8% |
| 1       | -1      |      | EBIT          | -19     | -8      |     |
| 6.6%    | 6.7%    |      | EBITDA margin | 5.4%    | 5.3%    |     |

- In the fourth quarter, net **organic sales** growth was 6% compared to Q4 2011 which was fully due to higher volumes. This volume growth was driven by uneven delivery patterns in the custom manufacturing business. Prices were stable
- EBITDA for the quarter was €13 million, slightly better than Q4 2011. This was mainly caused by
  increased volumes at DSM Pharmaceutical Products

### **Performance Materials**

| Q4-2012 | Q4-2011 | Δ%  | (€ million)   | FY-2012 | FY-2011 | Δ%   |
|---------|---------|-----|---------------|---------|---------|------|
| 655     | 627     | +4% | Net Sales     | 2,772   | 2,752   | 1%   |
| 52      | 43      | 21% | EBITDA        | 280     | 293     | -4%  |
| 17      | 0       |     | EBIT          | 146     | 162     | -10% |
| 7.9%    | 6.9%    |     | EBITDA margin | 10.1%   | 10.6%   |      |

- Fourth quarter organic sales growth was 2%. This was owing to a 6% volume growth especially in DSM Engineering Plastics and DSM Dyneema partly offset by a -4% price effect, as a result of lower polyamide-6 prices
- EBITDA increased significantly versus Q4 2011. EBITDA of DSM Resins & Functional Materials showed a major improvement due to strong performance in coatings and functional materials, as well as cost-saving programs. DSM Engineering Plastics also showed strong EBITDA improvement, driven by the growth in specialty polymers, despite lower margins in the polyamide-6 value chain caused by caprolactam. DSM Dyneema's results were at the same level as Q4 2011

### **Polymer Intermediates**

| Q4-2012 | Q4-2011 | Δ%   | (€ million)   | FY-2012 | FY-2011 | Δ%   |
|---------|---------|------|---------------|---------|---------|------|
| 393     | 467     | -16% | Net Sales     | 1,596   | 1,820   | -12% |
| 14      | 79      | -82% | EBITDA        | 129     | 380     | -66% |
| 6       | 67      | -91% | EBIT          | 97      | 339     | -71% |
| 3.6%    | 16.9%   |      | EBITDA margin | 8.1%    | 20.9%   |      |

- Fourth quarter organic sales development was -18% with 11% lower volumes mainly due to lower material availability as a result of a turnaround in the US
- EBITDA declined significantly mainly due to lower caprolactam prices and substantially higher benzene prices

### **Innovation Center**

| Q4-2012 | Q4-2011 | Δ%   | (€ million)   | FY-2012 | FY-2011 | Δ%   |
|---------|---------|------|---------------|---------|---------|------|
| 33      | 17      | +94% | Net Sales     | 102     | 60      | +70% |
| -9      | -17     |      | EBITDA        | -38     | -57     |      |
| -18     | -21     |      | EBIT          | -63     | -69     |      |
| -       | -       |      | EBITDA margin | -       | -       |      |

- In the fourth quarter, DSM Biomedical showed further improvement mainly driven by the contribution of Kensey Nash with sales of €18 million and an EBITDA of €7 million
- All other innovation activities including DSM Bio-based Products & Services continued at the same activity level

### Cash flow

| Cash Flow<br>(€ million)        | FY '12 | FY '11 |
|---------------------------------|--------|--------|
| Cash from operating activities  | 730    | 882    |
| Cash from investing activities* | -1,933 | -741   |
| Free cash flow from operations  | -1,203 | 141    |

| Balance sheet<br>(€ million) | YE 2012 | YE 2011 |
|------------------------------|---------|---------|
| Net debt                     | 1,668   | 318     |
| Gearing                      | 22%     | 5%      |

<sup>\*</sup> Excl. changes in fixed-term deposits

### OWC development Q1'09 - Q4'12

# Dividend to increase for the 3<sup>rd</sup> consecutive year

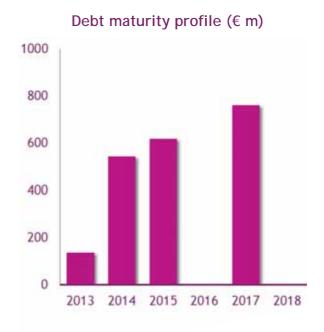

- Dividend policy "stable and preferably rising"
- Proposal to AGM (May 2013) to increase the dividend by €0.05 to €1.50 per ordinary share
  - € 0.48 interim dividend
  - € 1.02 final dividend
- · Payable in cash or ordinary shares

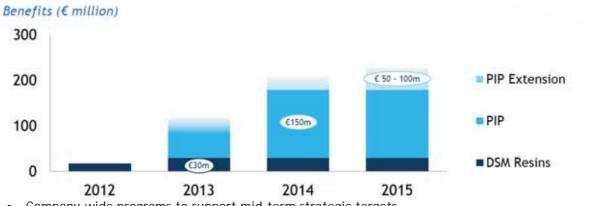

### Solid and flexible financial base

- More efficient capital structure, with gearing of 22%
- Total long term debt ~€2 bn, no covenants in outstanding bonds
- Single A credit rating by Moody's (A3) and S&P (A)
- Committed credit facilities of €900m, fully undrawn
- Updated €3.0bn EMTN program (Hong Kong Dim Sum bond features have been added)
- Continued risk mitigation, including hedging of currency exposures

### **Profit Improvement Program extended**

- Company-wide programs to support mid-term strategic targets
- Expected structural annual benefits:

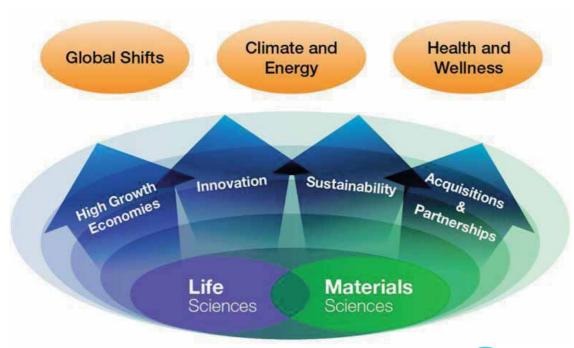

| - | DSM Resins:   | € 30m     | by 2013 |
|---|---------------|-----------|---------|
| - | PIP:          | € 150m    | by 2014 |
| _ | PIP Extension | € 50-100m | by 2015 |

PIP one-off cash costs taken in 2012 (~ €120m), PIP Extension one-off cash costs ~€ 70-80m will be taken in 2013

## DSM in motion: driving focused growth

### Good 2012 progress on DSM's growth drivers

### Major acquisitions done in 2012

#### **Acquisition of Kensey Nash**

 Making DSM biomedical a leading medical device materials supplier in regenerative medicine EV ~€ 275m; 2010/11 sales ~US\$ 72m, EBITDA ~US\$ 29m

#### **Acquisition of Ocean Nutrition Canada**

 Strengthens and complements DSM's global Nutritional Lipids growth platform, based on healthy, polyunsaturated fatty acids (PUFAs)

EV ~ € 420m; expected 2012 sales ~€150m, EBITDA ~€45m

#### **Acquisition of Fortitech**

 Creating a global leadership position in developing and manufacturing of food ingredient blends for food and beverage, infant nutrition and dietary supplements industries

EV ~ € 495m; expected 2013 sales ~US\$270m, EBITDA ~US\$70m

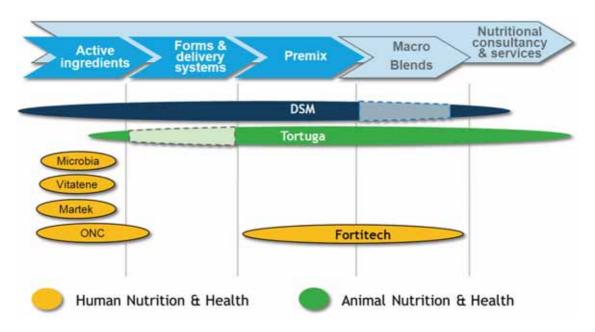

#### **Announced acquisition of Tortuga**

 Building up a leading position in LATAM by acquiring the Brazilian market leader in nutritional supplements with focus on pasture raised beef and dairy cattle

EV ~ € 465m- € 490m; expected 2012 sales ~€385m, EBITDA ~€60m

### Building unique value chain position in Nutrition

Portfolio broadened, value chain extended and global presence increased

### Since 2010 strong progress in Acquisitions & Partnerships

#### **PARTNERSHIPS ACOUISITIONS** €2.4bn Premix plant Russia Martek (microbial DHA/ARA) Vitatene (natural carotenoids), Premix plants (Romania, Italy) DSM Sinochem Pharmaceuticals Food enzymes business and technology (Verenium) Ocean Nutrition Canada POET: cellulosic bioethanol (fish derived Omega-3) Roquette: bio-succinic acid Tortuga (animal dietary supplements) DuPont: Actamax, biomedical materials Cargill Bio-products (enzymes, cultures) BP: biodiesel Fortitech (food ingredient blends) **Performance Materials** ~ €0.3bn Innovation center KuibyshevAzot Russia; PA6 Kensey Nash (biomedical materials) Kemrock India; composite resins C5 Yeast Company (cellulosic bio-ethanol) ~ €0.1bn **Performance Materials**

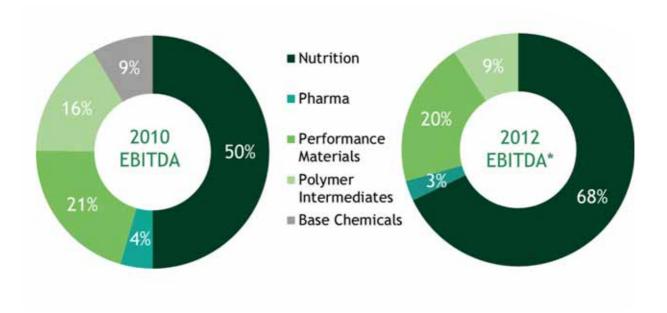

\* Since September 2010

ICD China; High performance fibers

AGI Taiwan; UV resins

# Enhancing the quality of DSM's earnings profile

<sup>\*: 2012</sup> EBITDA is including annualized proforma EBITDA of acquisitions

### 2012 progress in High Growth Economies

#### Sales

- Sales to High Growth Economies accounted for 38% of total sales
- Good growth in Nutrition and Performance Materials with ~10% growth
- Polymer Intermediates sales declined due to lower caprolactam prices

#### Highlights

- China:
  - new production facilities started-up: 6-APA, SSC, composite resins
  - 2<sup>nd</sup> Caprolactam plant under construction
- Latin Amercia, Brazil:
  - Acquisition of Tortuga is major leap for DSM in Latin America
  - New premix facilities
- India:
  - Global shared service center opened
  - Solar power plant being built using panels with antireflective coatings from KhepriCoat®

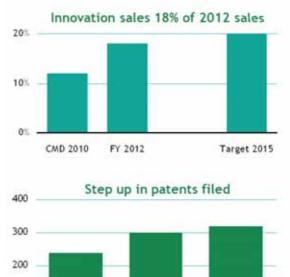

### Investing in innovation

- Innovation Sales at DSM is 18% of sales
- 319 Patents added to portfolio
- R&D expenditure in 2012: € 490m (5.4% of sales)
- New investments in R&D facilities:
  - Biotech in Delft
  - Materials Sciences in Geleen and Singapore
- New venturing investments in:
  - Regentis Biomaterials, a tissue repair company (Israel)
  - Optiwind, producer of wind turbines (US)
  - Venture Capital Funds including the 4<sup>th</sup> China Environment Fund of Tsing Capital (China)
- Regarding open innovation, an essential element of DSM's innovation approach:
  - key highlight is start-up of Bioprocess Pilot Facility in Delft (NL) for scaling-up research for bio-processes

2011

100

2010

2012

## Progress in EBA Bio-based Products & Services

- In cellulosic bio-ethanol:
  - Advanced C5 yeast and enzymes for cellulosic ethanol commercialized
  - Construction of POET-DSM 20-25m gallon cellulosic bioethanol facility (lowa), start up beginning 2014
- In advanced bio-diesel, DSM and BP extended cooperation on the development of microbial oils to produce bio-diesel from renewable sources
- In Advanced Biogas, DSM refocused on the development of an advanced biogas process: high intensity industrial biogas plant using DSM's advanced enzymes
- In biochemicals:
  - Bio-succinic acid plant in Cassano Spinola (Italy), starting production
  - DSM achieved considerable technological progress in biobased adipic acid and is in advanced discussions with prospective partners
  - Exciting pipeline of wide range of bio-based solutions

### Milestones in EBA's Biomedical and Advanced Surfaces

#### • In DSM Biomedical:

- Acquisition of Kensey Nash making DSM a leading medical device materials supplier
- DSM expanded its capabilities for manufacturing metal
- · orthopedic products
- DSM started commercial production of the ActiFit meniscal repair scaffold for Orteg
- Strong pipeline of new developments including trans catheter heart valves made with Dyneema Purity® fibers
- New collaborations, including:
  - ComfortCoat® for Epflex medical guidewires
  - CarboSil® TSPCU for AxioMed Spine's spinal discs

#### • In EBA Advanced Surfaces:

- Recalibrated its strategic approach, which led to a decision to fully focus on solutions for the solar industry, with its anti-reflective coating KhepriCoat®.
- New capacity for KhepriCoat®

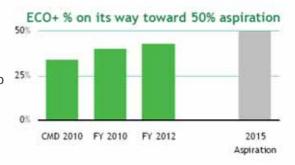

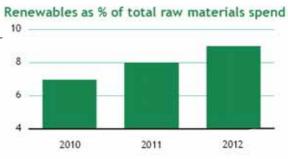

EBA's: €1bn high margin sales aspiration by 2020 confirmed

### Sustainability as business driver

- DSM was once again among the leaders in the Dow Jones Sustainability World Index. Since 2004 DSM held the top position six times
- ECO+ solutions as % of running business increased to 43%, ECO+ solutions in the innovation pipeline: 80%
- 2012 energy efficiency improved by 14% compared to 2008, on track toward 2020 aspiration of 20%
- Renewables now ~9% of total raw materials spend
- Employee Engagement Index in 2012 improved further and was close to high performance norm
- DSM has started the People+ program, a strategy for measurably improving people's lives. The program was further defined in 2012, including developing a new tool to measure the impact on people

### Partnerships to combat malnutrition

Offering tailored nutritional solutions to fight hunger and malnutrition around the world

- DSM and United Nations World Food Programme have strengthened their partnership to combat global malnutrition: 3-year extension to 2015; plan to double beneficiaries up to 30 million per year
- Furthermore, DSM is engaged in various other nutrition partnerships, including
  - the Scaling Up Nutrition movement (SUN)
  - the United States Agency for International Development (USAID)
  - Mercy Corps' food cart social enterprise KeBAL, World Vision International

People, Planet, Profit: We can't be successful in a world that fails

### **Nutrition: Continued value growth**

# 2012 progress: portfolio broadened, value chain extended and global presence increased

- Continued EBITDA growth driven by advanced forms, premixes, nutritional lipids and contributions from synergetic acquisitions
- New growth platform, DSM Nutritional Lipids established in Omega-3 and Omega-6
- Value chain extended with macro blends and nutritional services
- Continuation of differentiation-, and "valuebefore-volume" strategy
- Global premix network expanded
- Expansion in food enzymes & cultures

Strong focus on organic growth and acquisition integration, to maximize synergies

#### DSM's Global Nutrition network

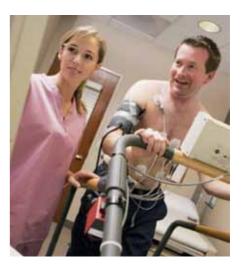

# Pharma: Leveraging partnerships for growth

#### 2012 progress

- Business conditions remained challenging but good progress was made
  - 6-APA (6-aminopenicillanic acid) plant started up
  - SSC (Semi-Synthetic Cephalosporin) plant finalized
  - Mammalian manufacturing facility in Brisbane, expected to open 2013
- Product differentiation: Atorvastatin commercialized
- CMO pipeline improved

DSM Pharmaceutical Products will pursue results improvements through own strength initiatives, while simultaneously looking at partnership options

# PM: Growing via innovative sustainable solutions

## 2012 progress

- At DSM Engineering Plastics:
  - Strong underlying improvements in specialty polymers were partly offset by the weakness in PA-6 chain
  - Investments in capacities for Arnite® and Arnitel®, Novamid® and Stanyl® ForTii™
  - Successful growth in halogen free solutions and bio-based engineering plastics

- Result was below prior year due to absence of large vehicle protection tenders, despite continued above average growth in commercial marine and sports markets
- Investments in UHMwPE tape manufacturing facility in Greenville
- At DSM Resins & Functional Materials:
  - Results showed an impressive improvement, despite weakness in building and construction
  - Continued business growth in Asia was secured by finalizing the construction of a new composite resin manufacturing plant in Nanjing and a new UV resins plant in Changbin
  - Focus in Coating Resins on sustainable systems: powder coatings, water-based coatings and UV-curing coatings

Portfolio set to outperform once global macro-economic conditions improve

# PI: Strengthening backward integration for DEP

## 2012 progress

- Significantly lower results: high benzene prices, new capacities in market, combined with weak end-use markets in fibers caused a sharp deterioration of margins
- 2<sup>nd</sup> 200kt line in China under construction with partner Sinopec (start-up end of 2013)
- Eco footprint improved by implementing new technology during turnarounds
- Investment in sustainable lowest cost ammoniumsulphate facility

DSM will look for opportunities to reduce exposure to the merchant caprolactam markets

## **Business Conditions**

## **Nutrition - Feed**

- Improving business conditions, impact of high grain prices on demand expected to soften
- Continued global growth in feed demand

## **Nutrition - Food**

- Sustained good business conditions
- Nutritional lipids, premixes and macro-blends showing strong growth

## Pharma

- Challenging market conditions
- Usual uneven delivery patterns between quarters

## **Performance Materials**

- Stabilizing market conditions
- Healthy growth in specialty segments
- Continued weakness in PA6 value chain
- No significant re-stocking in Q1'13
- Benefitting from execution of profit improvement programs

## **Polymer Intermediates**

- Business conditions for Polymer Intermediates are not anticipated to improve from H2'12
- Market conditions for acrylonitrile relatively stable

## 2013 Outlook

- Nutrition is expected to show clearly higher results than in 2012 due to organic growth moving towards the target of 2% above GDP and the acquisitions
- Business conditions in Pharma are likely to remain challenging though DSM is confident of being able to deliver substantially better results notwithstanding the usual uneven delivery patterns between quarters
- Performance Materials is expected to show improved results in 2013, despite the expected negative effects of caprolactam especially compared to the first half of 2012
- Polymer Intermediates is expected to show lower results than in 2012
- For the Innovation Center the activity level will be in line with 2012, with EBITDA clearly improving following the full year contribution of Kensey Nash
- Overall, based on current economic assumptions, DSM expects a step-up in EBITDA during 2013 due to stronger organic growth, supported by DSM's Profit Improvement Program and as the benefits of acquisitions and a more resilient portfolio start to have impact. In 2013 the focus will be on the operational performance and integration of the acquisitions DSM completed in 2012 with special attention to capturing synergies. Overall, based on current economic assumptions, the above will enable DSM to move towards its 2013 EBITDA target of €1.4 billion

# Wrap up

- Solid results in challenging market conditions:
  - Nutrition performed well, now representing >70% of Q4 EBITDA
  - 2012 results negatively impacted by caprolactam: €100 million in Q4 and ~ €300 million FY
- Dividend has been increased for third consecutive year from €1.45 to €1.50
- Significant strategic progress made in 2012
- DSM is positioned for strong EBITDA growth in 2013 following € 2.4bn acquisitions in Nutrition
- Profit Improvement Program expanded from € 150m by 2014 to €200m €250m by 2015
- Outlook 2013 unchanged: based upon current economic assumptions, DSM expects to move towards its 2013 EBITDA target of € 1.4bn

## Press Release

Heerlen (NL), 20 February 2013

DSM, Corporate Communications email media.relations@dsm.com

02E

#### DSM is positioned for strong EBITDA growth and increases dividend

- DSM reports a solid Q4 with EBITDA of €243 million
- EBITDA full year 2012 of €1,109 million with growth in all clusters, except for caprolactam
- Robust performance of Life Sciences driven by Nutrition
- Materials Sciences performed well, except for caprolactam
- Strong cash generation from operating activities of €730 million in 2012
- Dividend increase proposed to €1.50 per ordinary share
- Outlook 2013: moving towards EBITDA of €1.4 billion

Commenting on the results, Feike Sijbesma, CEO/Chairman of the DSM Managing Board, said: "In the context of challenging macro-economic conditions, DSM delivered growth across all clusters in 2012, excluding caprolactam. Nutrition now represents more than 70% of total EBITDA and has become a high value, global business with attractive growth prospects across the full value chain."

"The significant strategic progress we made during 2012 through our value creating acquisitions and the profit improvement initiatives we have taken leave us well positioned to achieve our long term objectives. In 2013 we will focus on the operational performance and integration of the acquisitions we completed in 2012 with special attention to capturing synergies. We expect strong EBITDA growth in 2013, moving towards €1.4 billion. The Board's proposal to increase the dividend for the third consecutive year is testament to the stronger DSM we have built in recent years, with more stable growth and profitability going forward."

#### In this report:

- 'operating profit' (before depreciation and amortization) is understood to be operating profit (before depreciation and amortization) before exceptional items;
- 'net profit' is the net profit attributable to equity holders of Koninklijke DSM N.V.;
- 'continuing operations' refers to the DSM operations excluding DSM Elastomers;
- 'discontinued operations' comprise net sales and operating profit (before depreciation and amortization) of DSM Elastomers up
- to and including Q2 2011; 'core earnings per share' is understood to be earnings per share before exceptional items and before acquisition related (intangible) asset amortization.

#### Overview

Despite ongoing global economic headwinds, DSM continued to deliver solid operational results in Q4, generating €243 million in EBITDA, despite a €100 million lower contribution from its caprolactam activities compared to Q4 2011. For the full year EBITDA amounted to €1,109 million, 14% lower compared to 2011. Profit growth in all clusters was more than offset by approximately €300 million lower results from DSM's caprolactam activities in Polymer Intermediates and Performance Materials.

Nutrition results in Q4 increased by 6% versus Q4 2011 and full year results increased by 8%, as a result of contributions from acquisitions and continued organic growth.

Pharma results in Q4 as well as for the full year 2012 were slightly above the level of the comparative periods of 2011.

Performance Materials recorded 21% higher EBITDA in Q4 compared to Q4 2011 due to higher volumes, improved margins and lower costs. Full year EBITDA was 4% lower due to lower margins in the polyamide-6 value chain (caprolactam effect) and lower volumes at DSM Dyneema.

As anticipated, Q4 and full year results at Polymer Intermediates declined significantly versus the same periods in 2011 mainly due to substantially lower caprolactam margins.

The Innovation Center improved its results for Q4 and the full year as a result of higher Biomedical sales supported by six months contribution from the Kensey Nash acquisition.

Q4 2012 EBITDA for Corporate Activities decreased compared to Q4 2011 mainly due to higher share-based payment costs and one-off items. Full year EBITDA remained at the same level as the previous year.

Cash provided by operating activities amounted to €730 million during 2012 versus €882 million in the prior year. Net debt increased by €1,350 million compared to year-end 2011 to a level of €1,668 million, mainly due to acquisitions, resulting in a more efficient capital structure.

**Fourth quarter** organic sales growth was 1% compared to Q4 2011 with volume growth (4%) partially offset by lower prices (-3%). Reported sales were positively impacted by favorable exchange rates (1%) and the acquisition of Ocean Nutrition Canada.

Human Nutrition & Health sales were up due to slightly higher prices and good volume growth. Premixes and Nutritional Lipids recorded double digit growth. Ocean Nutrition Canada showed strong sales momentum with the first synergy sales being realized. The Q4 results of Ocean Nutrition Canada were in line with expectations with sales of €36 million and EBITDA of €11 million.

Animal Nutrition & Health sales were somewhat lower due to stable volumes and a negative price and mix effect.

Personal Care showed stable volumes with somewhat higher prices.

DSM Food Specialties continued its growth especially in enzymes and savory ingredients.

EBITDA for the fourth quarter was €204 million, a 6% increase compared to the same quarter of 2011, mainly driven by the contribution of Ocean Nutrition Canada. The EBITDA margin was stable at 22.1%.

Full year organic growth was 2% driven by volumes and stable prices. EBITDA was €793 million and increased by 8% as a result of continued growth in advanced forms, premixes and nutritional lipids and contributions from acquisitions.

#### Pharma

| fourth quarter |      | in € million  | full y | full year |  |
|----------------|------|---------------|--------|-----------|--|
| 2012           | 2011 |               | 2012   | 2011      |  |
|                |      |               |        |           |  |
| 197            | 165  | Net sales     | 726    | 677       |  |
| 13             | 11   | EBITDA        | 39     | 36        |  |
| 1              | -1   | EBIT          | -19    | -8        |  |
| 6.6%           | 6.7% | EBITDA margin | 5.4%   | 5.3%      |  |

In the **fourth quarter**, net organic sales growth was 6% compared to Q4 2011 which was fully due to higher volumes. This volume growth was driven by uneven delivery patterns in the custom manufacturing business. Prices were stable.

EBITDA for the quarter was €13 million, slightly better than Q4 2011. This was mainly caused by increased volumes at DSM Pharmaceutical Products.

**Full year** organic sales growth was 9%. EBITDA for the full year slightly increased due to improved volumes at DSM Pharmaceutical Products and somewhat higher prices at DSM Sinochem Pharmaceuticals. This more than offset the higher costs partly associated with the startup of the new 6-APA plant for the anti-infectives business as well as the effect of the 50% deconsolidation of DSM Sinochem Pharmaceuticals as of 1 September 2011.

#### Performance Materials

| fourth o | quarter | in € million  | full y | ear   |
|----------|---------|---------------|--------|-------|
| 2012     | 2011    |               | 2012   | 2011  |
|          |         |               |        |       |
| 655      | 627     | Net sales     | 2,772  | 2,752 |
| 52       | 43      | EBITDA        | 280    | 293   |
| 17       | 0       | EBIT          | 146    | 162   |
| 7.9%     | 6.9%    | EBITDA margin | 10.1%  | 10.6% |

**Fourth quarter** organic sales growth was 2%. This was owing to a 6% volume growth especially in DSM Engineering Plastics and DSM Dyneema partly offset by a -4% price effect, as a result of lower polyamide-6 prices.

EBITDA increased significantly versus Q4 2011. EBITDA of DSM Resins & Functional Materials showed a major improvement due to strong performance in coatings and functional materials, as well as cost-saving programs. DSM Engineering Plastics also showed strong EBITDA improvement, driven by the growth in specialty polymers, despite lower margins in the polyamide-6 value chain caused by caprolactam. DSM Dyneema's results were at the same level as Q4 2011.

Full year organic sales development was -4% due to lower volumes (-3%) and lower prices (-1%). EBITDA was slightly below last year. The result of DSM Resins & Functional Materials showed an impressive improvement in 2012 due to cost reductions and pricing despite weakness in building and construction industries. Strong underlying improvements at DSM Engineering Plastics were partly offset by the weakness in the polyamide-6 chain (caprolactam effect). DSM Dyneema's full year result was below previous year due to the absence of new large vehicle protection tenders, which had been supporting DSM Dyneema in the first half of 2011.

#### Polymer Intermediates

|   | fourth q | uarter | in € million  | full y | ear   |
|---|----------|--------|---------------|--------|-------|
|   | 2012     | 2011   |               | 2012   | 2011  |
|   |          |        |               |        |       |
|   | 393      | 467    | Net sales     | 1,596  | 1,820 |
|   | 14       | 79     | EBITDA        | 129    | 380   |
|   | 6        | 67     | EBIT          | 97     | 339   |
| _ | 3.6%     | 16.9%  | EBITDA margin | 8.1%   | 20.9% |

Fourth quarter organic sales development was -18% with 11% lower volumes mainly due to lower material availability as a result of a turnaround in the US.

EBITDA declined significantly mainly due to lower caprolactam prices and substantially higher benzene prices.

**Full year** organic sales development was -16% due to 6% lower volumes as a result of the turnarounds and 10% lower prices. EBITDA was significantly lower. High benzene prices could not be passed on to the market due to weaker demand for caprolactam in combination with new production capacity coming onstream.

#### Innovation Center

| fourth qu | arter in € million | full ye | ear  |
|-----------|--------------------|---------|------|

| -9        | -17 EBITDA         | -38     | -57  |
| -18       | -21 EBIT           | -63     | -69  |

In the **fourth quarter**, DSM Biomedical showed further improvement mainly driven by the contribution of Kensey Nash with sales of €18 million and an EBITDA of €7 million. All other innovation activities including DSM Bio-based Products & Services continued at the same activity level.

**Full year** results showed good sales and EBITDA improvement primarily driven by continued strong growth in DSM Biomedical, supported by the contribution of Kensey Nash.

Corporate Activities

| fourth qu | arter in € million | full y | ear ear |
|-----------|--------------------|--------|---------|
| 2012      | 2011               | 2012   | 2011    |
|           |                    |        |         |

| -31       | -16 EBITDA         | -94    | -91     |
| -43       | -28 EBIT           | -139   | -135    |

In Q4 2012 EBITDA decreased by €15 million mainly due to the crisis levy (a one-off tax measure) introduced by the Dutch Government, higher share-based payments costs and higher project costs.

**Full year** EBITDA decreased slightly compared to the previous year as additional costs due to the crisis levy and higher share based payments costs were compensated for by the book profit on the sale of certain assets at the Chemelot site in the Netherlands and lower costs in service organizations.

#### Exceptional items

Total exceptional items in the **fourth quarter** amounted to €76 million before tax (€54 million after tax) including a charge of €44 million related to the Profit Improvement Program and €18 million in acquisition related costs.

Full year exceptional items amounted to €194 million (€149 million after tax) comprising provisions, impairments and restructuring costs of €160 million. Acquisition related costs amounted to €34 million.

#### Net profit

Net finance costs in the fourth quarter amounted to €31 million compared to €28 million in Q4 2011.

Full year net finance costs increased by €12 million compared to the previous year to a level of €94 million due to a lower average cash position at lower average interest rates and €7 million impairment of certain financial assets.

The effective tax rate before exceptional items for the full year was 18% versus 19% in 2011.

Net profit before exceptional items in the fourth quarter decreased by €43 million to a level of €75 million (Q4 2011: €118 million).

Net profit before exceptional items for the full year amounted to €437 million compared to €615 million in 2011.

As a result of exceptional items *total net profit* in the **fourth quarter** decreased by €64 million to €21 million (Q4 2011: € 85 million).

Total net profit for the **full year** amounted to €288 million compared to €814 million in 2011. This was due to the lower operating profit in 2012 and the restructuring and acquisition costs which were included in the exceptional items of 2012. In 2011 exceptional items included the book profit on divestments (€262 million).

Net earnings per ordinary share (continuing operations, before exceptional items) amounted to €2.58 versus €3.53 in 2011.

#### Dividend

#### Cash flow, capital expenditure and financing

Cash provided by operating activities amounted to €183 million in the fourth quarter (Q4 2011: €403 million) resulting in a full year total of €730 million (2011: €882 million).

Operating working capital as a percentage of sales amounted to 20.7% at the end of 2012. Excluding acquisitions it amounted to 20.0%.

Total cash used for *capital expenditure* in the **fourth quarter** amounted to €212 million (Q4 2011: €173 million). Cash flow related to *capital expenditure* for the **full year** 2012 was €686 million compared to €477 million in 2011.

At year-end 2012 *net debt* amounted to €1,668 million and *gearing* was 22% reflecting a more efficient capital structure.

### **Profit Improvement Program**

In Q2 2012 DSM launched a company-wide Profit Improvement Program (on top of the previously announced program in DSM Resins & Functional Materials), mainly focused on cost reductions and efficiency improvements, but also on sales growth and pricing. This program is fully on track and is expected to deliver structural annual EBITDA benefits of €150 million by 2014 of which more than half is expected in 2013. One-off cash costs for the Profit Improvement Program recognized in 2012 were approximately €120 million, in line with the guidance given in Q2.

DSM continued to look for opportunities to expand this program, and this has resulted in an increase in the program's scope to €200-250 million in benefits. The one-off cash cost related to this extension of the Profit Improvement Program are expected to be in the order of €70-80 million. The benefits following this extension are expected to be fully achieved by 2015.

#### DSM in motion: driving focused growth

DSM in motion: driving focused growth is the strategy that the company embarked on in September 2010. It marks the shift from an era of intensive portfolio transformation to a strategy of maximizing sustainable and profitable growth. DSM's strategic focus on Life Sciences (Nutrition and Pharma) and Materials Sciences (Performance Materials and Polymer Intermediates) is fueled by three main societal trends: Global Shifts, Climate & Energy and Health & Wellness. DSM aims to meet the unmet needs resulting from these societal trends with innovative and sustainable solutions.

Below is an overview of DSM's strategic achievements in 2012.

#### High Growth Economies: from reaching out to being truly global

Sales to High Growth Economies accounted for 38% of total sales in 2012 versus 39% of total sales in 2011. The decrease was mainly due to lower caprolactam sales in China.

Net sales to China amounted to USD 1.7 billion versus USD 2.0 billion in 2011, mainly due to lower sales prices at DSM Polymer Intermediates.

To achieve its 2015 target for High Growth Economies, DSM continued its global re-organization of its operations. The headquarter of DSM Sinochem Pharmaceuticals is in Singapore. The headquarter of DSM Engineering Plastics was moved to Singapore in 2012 and the headquarter of DSM Fibre Intermediates is now in Shanghai (China).

The acquisition of Tortuga in Brazil will more than double DSM's workforce in Latin America to around 2,000 people.

### Innovation: from building the machine to doubling innovation output

DSM's Emerging Business Area Bio-based Products & Services continues to make further strategic progress. The bio-succinic acid facility in Italy is currently in the start-up process. DSM and BP have extended their cooperation on the joint development of advanced bio-diesel. DSM successfully produced its first commercial batch of advanced C5 yeast for cellulosic ethanol producers. The construction of the POET-DSM Advanced Biofuels facility in Emmetsburg, Iowa (USA), is proceeding according to plan.

DSM is targeting innovative products and solutions to account for 20% of total sales by 2015. Innovation sales, defined as sales created by new products and applications introduced in the past five years, accounted for 18% of total sales in 2012, the same as in 2011. DSM is firmly on track to reach its 2015 innovation sales target.

#### Sustainability: from responsibility to business driver

As part of its strategy, DSM in motion: *driving focused growth*, DSM has formulated the ambition to go to the next level in sustainability: sustainability remains a core value and a responsibility to contribute to society, but in addition DSM is now developing sustainability into a strategic growth driver as well.

DSM believes sustainability will be a key differentiator and value driver in the coming decades. The company is uniquely positioned to capture new opportunities across the value chain. Sustainability is an integral part of the company's operations, actions and decisions.

ECO+ is DSM's strategic concept for promoting the development of sustainable, innovative products and solutions with ecological benefits. Products qualify as ECO+ when their environmental footprint is reduced compared with competing products or solutions. Typical examples are DSM's engineering plastics that enable customers to produce lower-drag, lighter-weight and therefore more fuel-efficient cars. Another example is Brewers Clarex™, which enables brewers to prevent chill haze without having to cool their beers to sub-zero temperatures. In 2015 DSM aims for at least 80% of its innovation pipeline to be ECO+ products or solutions and in 2015 their share of total net sales is expected to grow towards 50%.

DSM is developing a People+ strategy for measurably improving the lives of consumers, workers and communities across the value chains in which the company is active. People+ will do for the 'people' dimension of People, Planet and Profit what ECO+ has done for 'planet', giving further impetus to sustainability as a business driver for the company. DSM refined its People+ strategy in 2012 and also defined and road tested new metrics for it.

#### Acquisitions & Partnerships: from portfolio transformation to driving focused growth

In 2012 DSM announced eight acquisitions to strengthen its competences and market positions along its three other strategic growth drivers: High Growth Economies, Innovation and Sustainability. Since 2010 DSM has invested €2.8 billion in acquisitions, of which €2.4 billion in Nutrition, while applying highly disciplined strategic and financial criteria.

In 2012 DSM strengthened its industry leadership in the biomedical field with the acquisition of Kensey Nash, positioning DSM Biomedical as a profitable growth platform. DSM joined forces with POET LLC to commercially demonstrate and license cellulosic ethanol in the POET-DSM Advanced Biofuels joint venture.

In the Nutrition cluster DSM successfully completed the acquisition of Ocean Nutrition Canada, the leading global provider of fish-oil derived nutritional products to the dietary supplement and food and beverage markets. With this acquisition DSM strengthens and complements its Nutritional Lipids growth platform, established after the acquisition of Martek in 2011. DSM can now uniquely offer a full product range in the rapidly growing nutritional lipids category, offering both fish oil derived omega-3 fatty acids and microbially derived nutritional lipids.

DSM entered into a definitive agreement to acquire Tortuga, a privately held Brazilian company. Tortuga is a leading company in nutritional supplements with a focus on pasture raised beef and dairy cattle. The company is headquartered in Sao Paulo, Brazil with approximately 1,200 employees. The transaction is expected to close at the end of Q1 2013. DSM also acquired the Italian animal health and nutrition premix specialist, Cilpaz Srl.

DSM acquired Cargill's cultures and enzymes business, a globally leading manufacturer of cultures and enzymes for the dairy and meat industries with manufacturing operations in Wisconsin (USA) and France. The company also acquired certain assets, licenses and other agreements in the area of food enzymes and oilseed processing from Verenium.

DSM also completed the acquisition of Fortitech, Inc., a privately held company based in Schenectady (New York, USA), a leader in customized, value-added food ingredient blends for food & beverage, infant nutrition and dietary supplements industries.

#### Sustainability

In sustainability DSM set a number of ambitious aspirations in 2010 and in 2012 the company made good progress toward meeting them, as evidenced by the following highlights:

- DSM was once again among the leaders in the chemical industry sector in the Dow Jones Sustainability World Index. Since 2004 DSM has held the top position six times.
- In 2012 the percentage of ECO+ solutions in the innovation pipeline was 80%, equal to the aspiration set at 80%. ECO+ solutions as a percentage of running business increased to 43%. DSM is on its way toward the 50% aspiration for 2015.
- DSM is on track with its drive to improve energy efficiency by 20% by 2020 compared to 2008. Including 2012 energy efficiency improved by 14% compared to 2008.

- In 2012 DSM executed its fifth worldwide Employee Engagement Survey. The main element in the
  survey is the measurement of DSM's Employee Engagement Index, the percentage of employees scoring
  favorable on a combination of four attributes: commitment, pride, advocacy and satisfaction. The
  Employee Engagement Index measured in 2012 again was close to the high performance norm and
  improved versus 2011.
- DSM has started the People+ program, a strategy for measurably improving people's lives. The program was further defined in 2012, including developing a new tool to measure the impact on people.

Today DSM is publishing its third integrated annual report, after having published separate annual and triple P reports for more than a decade. More information on DSM's progress in sustainability can be found in this report.

#### Outlook

The challenging macro-economic environment experienced during Q4 2012 has continued into 2013, with low growth in Europe. Asia continues to show good levels of economic activity whilst the US has maintained a modest rate of recovery.

The Profit Improvement Program that was launched in August 2012 is fully on track and is expected to deliver structural annual EBITDA benefits of €150 million by 2014 of which more than half is expected in 2013. As anticipated, DSM has expanded the profit improvement initiative and now expects to achieve another €50-100 million in benefits on top of the €150 million. The benefits following this extension are expected to be fully achieved by 2015.

Nutrition is expected to show clearly higher results than in 2012 due to organic growth moving towards the target of 2% above GDP and the acquisitions.

Business conditions in Pharma are likely to remain challenging though DSM is confident of being able to deliver substantially better results notwithstanding the usual uneven delivery patterns between quarters.

Performance Materials is expected to show improved results in 2013, despite the expected negative effects of caprolactam especially compared to the first half of 2012.

Polymer Intermediates is expected to show lower results than in 2012.

For the Innovation Center the activity level will be in line with 2012, with EBITDA clearly improving following the full year contribution of Kensey Nash.

Overall, based on current economic assumptions, DSM expects a step-up in EBITDA during 2013 due to stronger organic growth, supported by DSM's Profit Improvement Program and as the benefits of acquisitions and a more resilient portfolio start to have impact. In 2013 the focus will be on the operational performance and integration of the acquisitions DSM completed in 2012 with special attention to capturing synergies. Overall, based on current economic assumptions, the above will enable DSM to move towards its 2013 EBITDA target of €1.4 billion.

#### Additional information

Today DSM will hold a conference call for the media from 07.30 AM to 08.00 AM CET and a conference call for investors and analysts from 09.00 AM to 10.00 AM CET. Details on how to access these calls can be found on the DSM website, <a href="www.dsm.com">www.dsm.com</a>. Also, information regarding DSM's full year 2012 result can be found in the Presentation to Investors, which can be downloaded from the Investors section of the DSM website.

One should rely solely on its own judgment, review and business analysis in evaluating the provided information.

# **Disclaimer**

- This document may contain forward-looking statements with respect to DSM's future (financial) performance and
  position. Such statements are based on current expectations, estimates and projections of DSM and information
  currently available to the company.
- Examples of forward-looking statements include statements made or implied about the company's strategy, estimates of sales growth, financial results, cost savings and future developments in its existing business as well as the impact of future acquisitions, and the company's financial position. These statements can be management estimates based on information provided by specialized agencies or advisors.
- DSM cautions readers that such statements involve certain risks and uncertainties that are difficult to predict and therefore it should be understood that many factors can cause the company's actual performance and position to differ materially from these statements.
- These factors include, but are not limited to, macro-economic, market and business trends and conditions, (low-cost) competition, legal claims, the ability to protect intellectual property, changes in legislation, changes in exchange and interest rates, changes in tax rates, pension costs, raw material and energy prices, employee costs, the implementation of the company's strategy, the company's ability to identify and complete acquisitions and to successfully integrate acquired companies, the company's ability to realize planned disposals, savings, restructuring or benefits, the company's ability to identify, develop and successfully commercialize new products, markets or technologies, economic and/or political changes and other developments in countries and markets in which DSM operates.
- As a result, DSM's actual future performance, position and/or financial results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.
- DSM has no obligation to update the statements contained in this document, unless required by law. The English language version of this document is leading.
- A more comprehensive discussion of the risk factors affecting DSM's business can be found in the company's latest Annual Report, a copy of which can be found on the company's corporate website, www.dsm.com
