

# Plant-based chicken skewers with curry-satay sauce

The distinctive delight of a sticky, tangy, creamy chicken satay skewer is hard to resist. But as we know, for plant-based consumers it's also hard to replicate. In fact, more than half (52%)<sup>1</sup> of those dissatisfied with plant-based products have attributed this to taste. At DSM we know it's achievable – and to prove it, our experts have created this unique concept that delivers a nutritious, delicious and satisfying meal - minus the cluck. Enjoy it all.

<sup>1</sup> FMCG Gurus Meat & Plant-based Global Report 2022

# Plant-based chicken skewers with curry-satay sauce

It starts with the unmistakable texture of soft, chewy chicken – where we use our Vertis™ textured pea protein. For an excellent taste, we use Maxavor® Grilled Chicken for distinctive meaty flavor and aroma; along with Maxagusto™ for a satisfyingly spicy kick. Then we mask off-notes with Maxavor® PlantMasker – which also enhances juiciness and umami. And finally, we create the rich satay sauce with our plant-based heavy cream-type flavor. The result: a truer skewer!

## DSM ingredients

### Plant-based chicken skewers

- ✔ **Vertis™ TVP P65.011** derived from pea proteins provides the right fibrous texture. Long chunks of texturized vegetable proteins create the same appearance and bite as authentic chicken skewers.
- ✔ **Maxavor® PlantMasker EU** masks undesired off notes from plant proteins and increases umami and juiciness.
- ✔ **Maxavor® Grilled Chicken** creates authentic instant culinary chicken flavors, combining grilled chicken and umami taste directions.
- ✔ **Premix for Poultry Alternatives (FA10644)** improves the nutritional profile of plant-based meat products.

### Curry-satay sauce

- ✔ **Maxagusto™ S-99** lifts the overall flavor profile, giving it a fuller character and increases the spicy notes.
- ✔ **Heavy Cream Type Flavor 103353D** provides an authentic creamy, fatty and rich flavor.
